

11kWh energy storage system

Overview

By integrating solar power generation, lithium battery storage, and optional grid or generator input, the system ensures continuous and stable electricity supply under various operating conditions. Introducing Guardian Outdoor, the compact 11 kWh solution for smaller-scale outdoor energy storage. Built for durability with IP67-rated battery modules and IP54-rated. The off-grid hybrid energy storage system with an 11kW inverter and 10.6kWh battery is a versatile power solution designed to operate both independently and in hybrid mode. It measures 436 x 262 x 725 mm and weighs only 92kg. With excellent discharge performance, it is ideal for homes, businesses, off-grid living, medical devices, and other scenarios requiring uninterrupted power supply. Unlike other products on the market, every individual part of the Offgen can be removed for repair, replacement or upgrade, extending the life of the.

11kWh energy storage system

11kW Off-Grid Solar System Price

For households sharing energy across multiple units, farms with refrigeration needs, or boutique resorts requiring 24/7 guest comfort, an 11kW solar system bridges the gap between residential and ...
