

150-foot solar-powered container for field operations in Moldova

Overview

The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. Containerized Off-Grid & Hybrid Solar Power System with Battery Storage The SM Solar Power Container HSO/150 kW + 200 kWh is a modular, containerized solar power solution designed for off grid and hybrid applications requiring reliable, high performance electricity. This system is realized through the unique combination of innovative and advanced container. 360 feet of solar panels can be rolled out in a matter of hours. In the East direction, the solar yield power is up to 76 MWh and in the West direction the solar yield power is 74 MWh. The Mobil-Grid ® is the ideal.

150-foot solar-powered container for field operations in Moldova

Mobile Solar Power Containers: Off-Grid Energy Anywhere

Designed for rapid deployment and all-terrain applications, this self-contained solar system delivers reliable off-grid power to areas where conventional infrastructure is limited, ...
