

15kW Energy Storage Container for Airports

Overview

This line chart presents a comparative analysis of three different 15kW container solutions across five key performance metrics: efficiency, cost, maintenance, size, and noise level. The data highlights the performance of Container Solutions A and B against industry benchmarks. The MOBICELL-15K is a modular three-cabinet clean power system engineered to replace diesel generators for backup and mission-critical power. The system combines: Fuel Cell Cabinet — housing three 5 kW HT-PEM methanol fuel cells (15 kW total) Battery & Power Electronics Cabinet — with integrated. The ESS Container 15kw is perfect for businesses looking to optimize energy usage and reduce operational costs, all while ensuring a sustainable energy future, With our well-established manufacturing processes and a dedicated team, we ensure each unit meets stringent quality standards. Equipped with a robust 15kW hybrid inverter and 35kWh rack-mounted lithium-ion batteries, the system is seamlessly housed in an IP55-rated cabinet for enhanced protection. Our BESS (Battery Energy Storage Systems) can be paired with the majority of our diesel generators to reduce fuel consumption. This compact “Energy Cabin” integrates battery storage, PCS, and smart EMS into a skid-mounted or trailer-ready enclosure. Replace noisy diesel generators with silent, clean.

15kW Energy Storage Container for Airports

 **LFP 12V 200Ah**

Energy storage container, BESS container

Adding Containerized Battery Energy Storage System (BESS) to solar, wind, EV charger, and other renewable energy applications can reduce energy costs, minimize carbon footprint, and increase ...

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

ENERGY STORAGE SYSTEM

15 kW Mobile Hybrid Energy Storage System (BESS)

Mobile 15 kW hybrid energy storage system with 33 kWh LiFePO4 battery. Scalable, silent, and emission-free solution for backup, construction, and off-grid sites.
