

20 000 solar panels signed agreement

Overview

PPC Ltd and Yellow Door Energy (YDE) have signed a landmark 24.5MW solar power purchase agreement (PPA). YDE's solar park in Leeudoringstad, North West, will deliver clean electricity to four PPC operations via the Eskom grid. The "Premises"), including any buildings and other improvements on the Premises other than the Commercial Operation Date, and each subsequent Contract Year shall commence on the rates in effect as of record otherwise in writing, and except as otherwise provided in Section 2(c) of Exhibit 3. A Solar Power Purchase Agreement (SPPA) is a financial arrangement in which a third-party developer owns, operates, and maintains the photovoltaic (PV) system, and a host customer agrees to site the system on its property and purchases the system's electric output from the solar services provider. For a home and you sign a contract to use the system. Contracts often last 20 years or more. You don't buy the system or own anything installed on your property during the term of the contract, you're entitled to use all the power the system produces. You'll probably buy less power from your electricity. Yet, a home solar contract has terms and details you should understand before signing a major, long-term investment. Residential solar project in Anchorage, Alaska.
