

380V Industrial Cabinets for Highway Use

Overview

Discover 380V switch cabinets with CE certification, stainless steel construction, and overload protection for industrial power distribution. Ideal for outdoor & indoor electrical systems. The GGD 380V Low Voltage Switchgear is designed for reliable energy conversion, distribution, and control in AC 50Hz power systems with a rated voltage of 380V and current up to 3150A. It is widely used in power plants, substations, industrial facilities, and commercial buildings. Top Cabinet's Large Electrical Enclosure accommodates large control systems, switchgear, and power distribution equipment. They play a pivotal role in ensuring the reliable flow of power, serving as the backbone of electrical systems in. Complete stainless steel distribution cabinets integrate electrical components such as circuit breakers, contactors, relays, instruments, and busbars into a stainless steel cabinet. The Model YNXL, Rated Voltage 380V, Rated Current 630A~10A, Conforming to Standard GB/T 7251. Installation Methods: Wall-mounted and floor-standing installation options are available.

380V Industrial Cabinets for Highway Use

GGD Low Voltage Distribution Cabinet , 380V AC Switchgear , Fulleto

Our GGD cabinets are designed with meticulous attention to detail using advanced CAD systems. This ensures precise component fitting, optimized internal space, and ease of integration into your ...
