

440 PV Panel Dimensions

Overview

Panel dimensions are 1134x1762x30 mm. The LG NeON® R series has been designed for high-power output making it efficient even in limited space. At 25 years, the modules are guaranteed to produce at least 92. The LG. part of the offer. JA Solar reserves the right of f . Designed to maximise energy generation through leading efficiency, enhanced performance in high temperatures, and higher energy conversion in low-light conditions like mornings, evenings and cloudy days. against fatigue and corrosion, to an electrical architecture that mitigates the impact of shade. The JA Solar JAM54D41-440/MB is a high-efficiency, all-black bifacial solar module built for residential and commercial applications where both aesthetics and performance matter. Featuring advanced n-type Bycium+ cell technology and multi-busbar half-cell construction, this 440W module delivers.
