

# 500kWh photovoltaic energy storage container in the Middle East

## Overview

---

The Doha energy storage power station case isn't just another green tech experiment - it's Middle East's first major leap into grid-scale battery storage, proving even oil-rich nations can't resist the siren call of clean energy. Namkoo New Energy is a leading renewable energy company with a vision to transform communities by harnessing the power of solar energy. In collaboration with the local authorities of Al-Sahran, a small town in Saudi Arabia, Namkoo is embarking on an ambitious solar energy storage project. But what does the next phase look like?

DNV has forecast that the MENA region will add 860GW of new. For this project, after thoroughly assessing the client's needs, GSL ENERGY customized a 2MWPCS and 4.6MWh energy storage battery system for the client, utilizing 16 120kW inverters for AC coupling, each housed in three 20-foot containers.
