### 5G Base Station Container Data Center Room Including PDU UPS ...

It breaks the limitations of traditional data centers--such as on-site construction, long cycles, and poor flexibility--and boasts core advantages of high standardization, mobility, and rapid deployment.

[Learn More](#)

### Applications

### 5G-oriented Data Center Facility

The 5G network has a smaller frequency band coverage and more base stations, twice the number of 4G base stations. The power density of the 5G AAU and BBU is five times higher than that of 4G.
