

# A small solar outdoor power cabinet worth a few tens of usd

## Overview

---

The price range for an outdoor energy storage cabinet typically lies between \$3,000 and \$15,000, depending on various factors, such as \*\*1. The average daily power generation of 20kWh  $\approx$  covers the daily electricity consumption of 3-4 people, such as air conditioning, lighting, and electrical appliances (reference average household daily consumption of 15-25kWh). It greatly reduces electricity bills, and can be supplemented by energy. At The Inverter Store, we often get requests regarding solar setups for small homes or cabins that are off the grid or want to be.
