

All black components with white chassis

Overview

I built this simple gaming PC build for @PhysicalRadio as requested, with a black case and white components on the inside. For decades Lian Li has brought to market some of the highest quality PC cases. From trains to boats and everything in between. I LOVE the look of the O11 Dynamic Evo white. I'm building a PC, and I'm stuck deciding between a black or white build for the Fractal Design Meshify 2 case. I'll be using the same parts regardless of the color choice, but I'd like some advice on which option might look better! White Build Thoughts: I love how RGB looks in a white case.
