

All new energy small cabinet stations in asean

Overview

Vietnam's Mekong Delta now uses floating storage containers that double as fish breeding habitats – talk about multitasking! Meanwhile, Singapore's Jurong Island Microgrid Project reduced diesel usage by 40% using stacked containers that communicate like chatty neighbors. ASEAN countries are collaborating to meet soaring energy demand with affordable, reliable and sustainable solutions that focus on energy integration. Meeting rapidly growing demand. To advance ASEAN energy goals by unifying and strengthening ASEAN energy cooperation and integration. To function as an energy data and knowledge hub by providing a knowledge repository and related services. Activity Structure Introducing case studies with the participation of companies aiming to expand into ASEAN.
