

Angola electric vehicle charging infrastructure

Overview

The national oil company in Angola is set to roll out more than 100 Electric Vehicle Charging Points (EVCP) over the next three years. This announcement was made by Jelson Pereira, Head of the Operational Management of Energy Assets. The Angola EV charging infrastructure market is still in its nascent stage, with a growing interest in electric vehicles and sustainability driving the need for charging stations. EV Options: Brands like Tesla, BYD, Hyundai, and.
