

# Are JA Solar panels easy to use

## Overview

---

Overall, JA Solar makes great panels for homeowners on a budget. The price per watt is considerably lower than you'd find from most other manufacturers, but among other affordable brands, the efficiency rating and performance specifications are above-average. JA Solar is a leading manufacturer of high-efficiency photovoltaic solar panels, based in Shanghai, China with several global offices, including one in San Jose, California. JA Solar is considered a budget brand, but among the different affordable panel manufacturers, JA Solar delivers relatively high. For customers, JA Solar Panels offers a variety of solar panels with variations in the ability to get different power outputs, and solar cell counts, which earns them a spot as a top solar panel on our rankings. However, there are so many Chinese brands – 8 out of Top 10 solar companies are Chinese! How do you choose between them?

We got your back, let's go over them together one by one. It promises to provide maximum output and efficiency up to 22%.
