

# Are battery cabinets and DC panels the same

## Power Conversion System

- Single-stage three-level modularization
- Multi-branch input to reduce battery series and parallels connection

## Overview

---

While both cabinets and racks serve the same purpose—supporting battery systems—their design, safety level, and use cases are very different. Here's a clear, side-by-side way to understand how they compare. Battery cabinets are fully enclosed units. This is the seventh in a series of units that will educate you on the part played by a battery in an uninterruptible power supply (UPS) system. The following. HindlePower's battery enclosures and trailers are engineered systems the user can build upon and customize to meet their utilities' specific needs. A typical cabinet integrates batteries, racking and chargers into an indoor (NEMA 1 or IP21) or outdoor (NEMA 3R or IP54) rated enclosure.
