

# Are wall-mounted solar brackets universal

## Overview

---

To secure your valuable solar panels to the wall and position them for maximum sun exposure. The best types of mounting systems are those that withstand the elements and adjust according to your needs – much like a steadfast tree adjusting to the wind. Check each product page for other buying options. Whether for roof - top, ground - based, or wall - mounted installations. For solar projects seeking optimal space usage, Sunforson's Wall-Mounted Bracket emerges as a game-changing solution. Designed to fully tap into vertical wall spaces, this bracket offers unparalleled flexibility, making it a top choice for diverse solar installation scenarios. It's much flexible with adjustable tilt range between 20°~35°to get more energy. Secure attachment to any flat surface using included mounting screws, or clip onto vinyl siding without drilling.
