

# Australia Sydney 25 kW solar energy storage power generation and energy storage integrated machine

## Overview

---

The hybrid facility will integrate 243MWp of solar generation capacity with a 172MW/409MWh battery energy storage system (BESS), establishing it as one of Australia's first large-scale DC-coupled solar and storage projects. Sydney, Australia - 14 August 2025 - Clean energy solutions provider Gentari yesterday marked the groundbreaking of the Maryvale Solar & Energy Storage project (Project Maryvale), a key milestone in delivering reliable, low-carbon energy for New South Wales (NSW). What Is a 25kW Solar Battery?

A 25kW solar battery is a high-capacity energy storage solution designed to store. SigenStor is an AI-optimized 5-in-one energy storage system that brings your solar dream to reality, helping you achieve energy independence with maximum efficiency, savings, flexibility and resilience.
