

Austria home energy storage battery prices

Overview

In H1 2023, the average selling price for these systems was EUR 1,332/kWh, while in H2 2025 it has dropped to EUR 711/kWh. These dynamics have made residential battery systems more accessible, attracting a broader customer base seeking relief from rising electricity bills. The adoption of energy storage systems, such as batteries, is driven by the increasing use of renewable energy sources like solar power.
