

BESS Uninterruptible Power Supply in Northern Cyprus

Overview

Spearheaded by a partnership between the Electricity Authority of Cyprus (EAC) and Swedish energy technology company ABB, the BESS project is located near the town of Vasilikos and has an initial capacity of 50 megawatts (MW), with plans for future expansion. In this comprehensive guide, we at CGP Solar explain why BESS is becoming essential for businesses in Cyprus, how it works, who needs it, available government subsidies, and how to get started.

3 MWh battery energy storage system (BESS) and solar project, in a milestone for Cyprus. From ESS News Cyprus has taken a step toward modernizing its energy infrastructure with the commissioning of a 3. (AP Photo/Petros Karadjias) Cyprus' Department of Environment has approved a project for what is set to become one of the country's first battery. In May 2025, Cyprus successfully commissioned its first significant battery energy storage system (BESS), marking a major step toward enhancing the country's energy infrastructure and aligning with its national goals for renewable energy integration and grid optimization. Spearheaded by a. The Apollon PV Park has commissioned a 3.
