

Balcony wall mounted solar bracket installation

CE UN38.3 

Overview

This guide walks you through how to mount solar panels on a balcony safely and sensibly, with a focus on renter-friendly, removable hardware and realistic load thinking. Note: This article focuses on mounting and safety. Wall-mounted solar panel brackets (also known as wall mounts or side mounts) are a highly effective solution for installing solar panels directly onto the vertical facade of a building. Putting a solar panel on a balcony sounds simple—until you look closely at what's actually holding that panel in place. The portable nature allows renters to take their investment when moving, making it ideal for apartment living.
