

Battery energy storage investment in the maldives

Overview

The Maldivian government has signed a landmark agreement to deploy 38 megawatt-hours (MWh) of battery energy storage systems (BESS) alongside energy management systems (EMS) across 18 residential islands, as part of its transition to renewable energy. Supported by the ADB through the Accelerating Sustainable System Development Using Renewable Energy. May, 2024 AIIB PT is considering to prepare an appraisal mission in May 2024 for the proposed additional financing. Solar panels on the island of Velidhoo.
