

# Battery energy storage system power supply for communication base stations in Cameroon

## Overview

---

With mobile penetration reaching 84% in Cameroon (Q2 2023 GSMA report), stable power supply for base stations has become critical. The Douala tender represents a \$12-15 million opportunity to deploy modern energy storage systems across 78 strategic telecom sites. "Energy storage solutions can. When natural disasters cut off power grids, when extreme weather threatens power supply safety, our communication backup power system with intelligent charge/discharge management and military-grade protection becomes the "second lifeline" for base station equipment. 45V output meets RRU equipment. The application of Battery Management Systems in telecom backup batteries is a game-changing innovation that enhances safety, extends battery lifespan, improves operational efficiency, and ensures regulatory compliance. Users can use the energy storage system to discharge during load peak periods and charge from the grid during low load periods, reducing peak load demand and saving electricity. Systems (BESS), in both stationary and mobile applications. As we are entering the 5G era and the energy consumption of 5G base stations has been.

## Battery energy storage system power supply for communication base

---

### Cameroon communication base station lead-acid battery ...

The application of Battery Management Systems in telecom backup batteries is a game-changing innovation that enhances safety, extends battery lifespan, improves operational efficiency, and ...

[Learn More](#)

### Power equipment for base stations of telecommunication ...

Three types of telecommunication base stations (BTS) are found in the Sahel area of Cameroon. The energy model takes into account power consumption of all equipment located in base

### ENERGY STORAGE SYSTEM

**Product Model**  
HJ-ESS-215A(100KW/215KWh)  
HJ-ESS-115A(50KW 115KWh)

**Dimensions**  
1600\*1280\*2200mm  
1600\*1200\*2000mm

**Rated Battery Capacity**  
215KWH/115KWH

**Battery Cooling Method**  
Air Cooled/Liquid Cooled
