Big Canberra Battery - Williamsdale BESS

The Big Canberra Battery project will deliver large-scale batteries across the ACT to ensure that our electricity grid remains stable.

[Learn More](#)

Our Battery - Capital Battery

As an industrial sized battery energy storage system, the Capital Battery provides grid stability for Canberrans by dispatching stored energy to the grid during peak times of demand. Learn more about ...

Naturgy commissions its first battery storage facility worldwide in

A clear example of this commitment to the country is the company's current investment to build its first solar hybrid project worldwide in Australia, combining photovoltaic and storage battery ...

[Learn More](#)

ACT Battery, our world's first

battery storage facility, is now

The ACT Battery project in Australia will enhance the quality of supply in the city of Canberra and accelerate the country's energy transition by enabling greater introduction of ...

Commercial and Industrial ESS

Air Cooling / Liquid Cooling

- Budget Friendly Solution
- Renewable Energy Integration
- Modular Design for Flexible Expansion

Australian battery breakthrough to target industry

The crew at Melbourne-based Relectrify have developed a novel "operating system" that can squeeze out 20 per cent more energy over the lifetime of most battery cells compared to ...

Power complex: Progress on ACT big battery facility

The 250-megawatt (MW), 500 megawatt-hour (MWh) battery energy storage system (BESS) will store enough renewable energy to power one-third of

Canberra for two hours during peak demand periods, ...
