

Beijing 5g base station communication cabinet design

Beijing 5g base station communication cabinet design

CN113853034B

The invention discloses a 5G communication base station, comprising: the cabinet body is used for bearing various electrical components, and a cabinet door is arranged on the front side

5g base station communication cabinet

The cabinet adopts a multi-layer material structure, and the external non-metallic plate effectively reduces the external light absorption of heat, the internal temperature is stable, and the air conditioning ...

[Learn More](#)

Power cabinet for 5G communication base station

a power cabinet for a 5G communication base station comprises two cabinet doors connected to a cabinet body in a hinge mode, wherein a rainproof top is fixedly installed on the cabinet

[Learn More](#)

What is a Base Station Cabinet

A base station cabinet protects telecom equipment, ensures stable power, cooling, and security, and supports 4G, 5G, IoT, and emergency networks.
