

Black Mountain Grid-Side Energy Storage Project

Overview

Leveraging cumulative decades of electric market experience, Black Mountain Energy Storage develops powerful, flexible, and strategically placed battery energy storage projects to foster a resilient electric grid. BMES' quickly expanding team of energy experts are fast actors in pipeline. PORTLAND, Ore. - Janu- GridStor, a developer and operator of utility-scale battery energy storage systems, announced today that it has acquired a battery storage project in Oklahoma, totaling 200 MW / 800 MWh to be developed in two phases, from Black Mountain Energy Storage (BMES). The facilities are important for storing electricity and ensuring its availability during peak periods.
