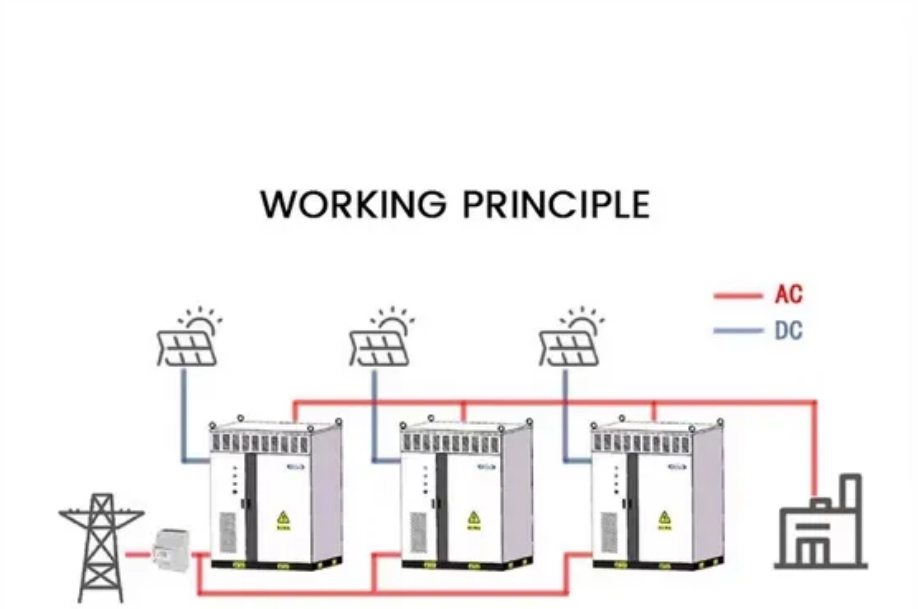
Brand new solar container outdoor power field in Seychelles



Overview

Qair launches construction of the 5. 8 MW Seysun Lagoon floating solar power plant in Seychelles, set for commissioning in mid-2026. 8 MW project located in the Providence Lagoon on Mahé Island. The ceremony was held in the presence of Flavien Joubert. By mid-2025, Seychelles is poised to take a significant leap in renewable energy with the launch of its first floating solar farm—the largest in Africa. Spanning 32 hectares of the Providence lagoon, this ambitious project is a collaboration between the nation's Public Utilities Corporation (PUC). Why is Qair launching a floating solar plant in Seychelles?

The floating solar plant to be developed by Qair is a key part of Seychelles' energy transition and a significant milestone in the country's efforts to achieve carbon neutrality. " – 2023. The much-anticipated 5MW Floating Independent Power Producer (IPP) Photovoltaic (PV) project in the Providence Lagoon is poised to commence in the coming weeks, following the formal signing of project documents between the Government of Seychelles an.
