

Brazil lacks base station sites

Overview

However, according to Anatel's interactive database of domestic mobile antennas, there are currently 21,954 5G wireless base stations installed in 831 municipalities across the country. Telefónica Brasil (Vivo) has abandoned the public sale of the surplus base stations it acquired as part of its three-way takeover of Oi Móvel after receiving no proposals for the assets. While most Brazilians can readily access 4G LTE mobile broadband, many rural communities and seasonal destinations . Brazil Multi-carrier Small Cell Base Station Market size was valued at USD XX Billion in 2024 and is projected to reach USD XX Billion by 2033, growing at a CAGR of XX% from 2026 to 2033. The operator informed Conselho Administrativo de Defesa Economica (CADE) of its decision on March 19, reports Comms Update. In a statement from Anatel, the regulator said that it provided licenses for the activation of 5G.
