

British low-temperature lithium battery pack manufacturer

Overview

Britcell delivers advanced battery pack solutions engineered in the UK for diverse sectors, from automotive to medical and industrial applications. With a focus on safety, innovation, and reliability, our certified products meet the highest international standards including UN38.3. Our leading product - ultra-low temperature LiFePO₄ batteries has broken the public's inherent impression of poor low-temperature performance, truly achieving low-temperature direct charging and discharging. More importantly, it has a long cycle life and safety performance. And it can meet the. With more than 40 years of experience, ABT is a UK-based battery pack manufacturer supporting OEMs worldwide. Whether your requirement is for a battery pack that is custom designed and assembled to precisely match your specific needs or an 'off the shelf' battery that can be customised or used as is, we can help.

British low-temperature lithium battery pack manufacturer

Custom Battery Packs , UK Battery Manufacturer

We have been designing and manufacturing custom battery packs for a wide range of industries for more than 30 years.
