

Brunei solar power generation and energy storage project

Overview

Brunei is set to develop a 30-megawatt (MW) solar power plant, marking a significant step forward in the country's renewable energy ambitions. The project will be led by a newly formed joint venture, Seri Suria Power (B) Sdn. This initiative is part of Brunei's broader goal of generating 200 megawatts (MW) of solar energy by 2025 and reducing its reliance on. Brunei's largest solar photovoltaic power plant (SPVPP) with a 30-megawatt (MW) capacity in Kg Belimbing is slated to launch by the end of 2026, following a groundbreaking ceremony on August 11. Located on a remediated landfill site spanning 32., which will oversee the construction and operation of the facility. Developed by Seri Suria Power, the project is designed to produce over 64,000 megawatt-hours of clean energy annually, reducing dependence on fossil fuels by.
