

Bulgaria solar Energy Storage Battery Solution

Overview

Bulgaria's Ministry of Energy has approved €588 million in funding for 82 standalone battery energy storage projects, totaling nearly 9. The final decision, announced on Ap, concludes a competitive selection process that began with 151 proposals. Bulgaria's second standalone energy storage procurement exercise of 2025, worth close to BGN 229 million (\$137. 2 million), received a lot of interest and there are 30 project proposals included in a reserve list, the government said. The. In 2024, GSL ENERGY completed a 7. 45 MW battery energy storage system (BESS) in Bulgaria, which is used in conjunction with a large-scale solar photovoltaic power plant to provide stable, clean electricity to remote areas. The facilities, developed by solar and energy storage leader Sunotec, will play a vital role in stabilizing the regional electricity. The black asphalt shimmers with heat as the road winds through the dappled green of the ancient forests of Strandzha Nature Park, the largest protected area in Bulgaria. Nestled in the Strandzha Mountains near the Turkish border, the landscape here is both rugged and remote.
