

# Cairo solar container outdoor power lithium iron phosphate and

## Overview

---

Our industry-leading solar battery storage solutions feature safe and durable LFP (Lithium Iron Phosphate) technology, high charge/discharge rates (1P or 1C), exceptional energy density, advanced thermal safety, and efficient high-power cooling. High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and. It is highly integrated internally with components such as the energy storage inverter, energy storage battery system, system distribution, liquid cooling. The container material is made of special weathering steel SPA-H. The design is compact, allowing overall transportation, easy installation and debugging, and low construction cost; The liquid cooling system ensures higher system efficiency and cell cycling up to 10,000 cycles. This deep cycle lithium battery provides efficient, long-lasting power for your RV. The "all-in-one" design integrates batteries, BMS, integrated outdoor battery energy.
