

Cambodia outdoor solar power hub local bess

Overview

Located in Kompong Chhnang Province, the 90 MW solar PV + 18 MW/18 MWh BESS facility marks a milestone in Southeast Asia's energy transition, leveraging Univers' cutting-edge Power Plant Controller (PPC) and SCADA platform to deliver grid stability and optimize energy output. Huawei Digital Power has successfully commissioned what it claims is Cambodia's first grid-forming battery energy storage system (BESS) certified by TÜV SÜD. The newly completed 12MWh energy storage project, which was developed in collaboration with SchneiTec, a renewable energy developer, features. Cambodia has substantially boosted its power generation capacity and reduced imports from neighboring countries. 2 Domestic power generation increased from 8.
