

Can solar mounts hide ugliness

Overview

☐☐ Sleek low-profile mounting systems, such as SunPower's InvisiMount® technology, allow for a more visually appealing roof. ☐☐ Built-in microinverters optimize performance without compromising appearance. ☐☐ Signature all-black panels enhance visual appeal without the conventional. However, the design of ugly solar panels can affect the aesthetics of a home. As with many other aspects of a home, aesthetics are a primary concern for most homeowners considering installing a solar array.
