

# Chile's new energy solar panels

## Overview

---

Enel Green Power has launched the Oasis de Atacama solar power complex in Chile, marking a significant milestone in the country's transition to renewable energy. Chile is rapidly moving to build more power generation capacity, with much of that effort focused on renewable energy resources and battery energy storage systems (BESS). As part of these phases, 221 megawatts of solar panels have been installed along with a 1.2 gigawatt-hour battery storage system that can. Starting today, Enel Chile, through its subsidiary dedicated to the development of renewable energy, Enel Green Power Chile, will commence commercial operations of stages 1, 2, and 3 of the Las Salinas PV solar power plant.
