

Clean electricity baseterre

Overview

Flow batteries using local sea water (nature's electrolyte cocktail!) When Hurricane Tammy knocked out traditional grids for 72+ hours last year, Basseterre's microgrids with 48-hour storage capacity kept hospitals running and rum distilleries. The Organisation of Eastern Caribbean States (OECS) has taken a bold step towards a cleaner and economically sustainable future with the unanimous adoption of the landmark Basseterre Declaration at the Third Council of Ministers: Energy meeting held on February 4-5, 2025, in Saint Kitts and Nevis. The. Basseterre, Saint Kitts and Nevis, Octo- The Government of Saint Kitts and Nevis proudly announces a landmark initiative to decarbonise the Basseterre Deep Water Port through a cutting-edge renewable energy project spearheaded by SYG TECH. Kitts and Nevis' growing energy demands. This facility integrates seamlessly with existing solar farms and wind turbines, creating a hybrid power. They're literally surrounded by renewable resources like wind and solar, yet most still rely on expensive diesel generators for 60-80% of their electricity [1]. The newly announced Basseterre compressed air energy storage tender isn't just another infrastructure project—it's potentially the key to.
