

# Costa Rica s new solar module prices

## Overview

---

The plan proposes a price band of \$0.085 per kilowatt-hour (kWh) for solar projects. This range will serve as the basis for ICE to set the reference price for purchasing electricity from independent solar power producers. Here's what impacts your final quote: Quick tip: Always request itemized quotes. Some providers bundle installation costs, while others separate equipment and labor. Take Maria's case – a hotel owner near Poás Volcano. What's certain is that more and more companies, industries, and high-consumption homes are turning to tailored solar solutions to reduce energy costs, increase. But here's the kicker: Costa Rica's solar panel market grew 23% last quarter alone. With electricity prices hitting ₡153 per kWh this March, homeowners are finding solar isn't just eco-friendly – it's becoming economically essential. Why exactly are Ticos rushing to solar. We have affordable solar panel systems that can save you money starting this month and by using the savings to add more panels to the system you will eventually reduce your bill to almost nothing.
