

Cuban solar power regulations

Overview

HAVANA, Dec 12 (IPS) - With Decree 110, published on 26 November, Cuba made it mandatory for major consumers, whether they are state or private entities, to invest in the use of renewable energy sources, while the energy crisis facing the country worsens. The Ministry of Finance and Prices (MFP) issued Resolution 169 on , published in the Official Gazette No. 60, which updates the tax framework associated with the importation and use of technologies related to renewable energy sources (RES). The new policy, effective immediately, allows travelers to bring these items into Cuba through airports without. According to communication with our editorial staff, the import of photovoltaic systems and solar panels, as well as their essential components, are exempt from paying customs duties in Cuba.
