

# DC uninterruptible power supply for fire protection

## Overview

---

This DC 24V 5A power supply delivers stable energy to fire panels, dampers, smoke vents, and more. Featuring dual-stage battery charging (normal + floating charge), battery reverse polarity protection, and deep discharge prevention, it safeguards lead-acid batteries while. There are a few different options when it comes to choosing a reliable power supply, as well as some calculations that are necessary to ensure that the fire alarm system is provided with sufficient backup power. < 120W High-Power Output: 24VDC (22. 2V) voltage range with 5A rated current (max 9A) to support multiple heavy-duty. Power supply solutions include intelligent power modules and remote supplies. Learn more about Fire-Lite's mass notification solutions. Explore Fire-Lite's. To help meet these challenges, designers can turn to off-the-shelf, DIN rail mounted digital security power supplies that integrate a standard AC-DC power supply, a battery charger, a DC uninterruptible power supply (DC UPS), and Modbus or CAN bus communications. According to the NFPA 110, Standard for Emergency and Standby Power Systems, all fire alarm systems require a primary power source, along with a secondary source in the event of a power. - Specific device for application in fire-protection systems. Designed for 2 or 3 outputs and protected from overload and short circuit, it provides fault indication and eliminates the deep discharge of batteries - Temperature compensated charging - Input: one single phase (115-230-277 Vac) -.

## DC uninterruptible power supply for fire protection

### ESS

### DC-UPS , Uninterruptible power supplies

Our uninterruptible power supplies are available with capacitor storage or VRLA batteries. The DC-UPS with integrated electrochemical double layer capacitors are fully maintenance free and guarantee an ...

### Altronix Products

8A of continuous supply current for Fire Alarm applications. Filtered and electronically regulated output. Short circuit and thermal overload protection. Built-in charger for sealed lead acid or gel type ...

[Learn More](#)

-  **Efficient Higher Revenue**
  - Max. Efficiency 97.5%
  - Max. PV Input Voltage 600V
  - 150% Peak Output Power
  - 2 MPPT Trackers, 150% DC Input Overvoltage
  - Max. PV Input Current 15A, Compatible with High Power Modules
-  **Intelligent Simple O&M**
  - IP65 Protection Degree: support outdoor installation
  - Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
  - DC & AC Type II SPDs prevent lightning damage
  - Battery Reverse Connection Protection
-  **Flexible Abundant Configuration**
  - Plug & Play, UPS Switching Under 15ms
  - Compatible with Lead Acid and Lithium Batteries
  - Max. 6 Units Inverters Parallel
  - AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation

### Multifunction Intelligent Power Supplies , DigiKey

Quickly implement an intelligent fire safety and security system using a combined AC-DC power supply, battery charger, DC UPS, and communications monitor.
