

Diqing Solar Photovoltaic Power Plant

Overview

Diqing Solar PV Project is a 125MW solar PV power project. It is planned in Zhejiang, China. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the permitting stage. The project construction is. Global Solar Power Tracker, a Global Energy Monitor project. Read more about Solar capacity ratings. To access additional. The first phase of the Huaneng Nagqu Solar Power Station was officially connected to the grid on December 24 in Deqin County, Diqing Tibetan Autonomous Prefecture, Yunnan Province. Situated at an altitude exceeding 5,240 meters, this project is now the highest-altitude solar power facility in the. CCTV is funded in whole or in part by the Chinese government., a subsidiary of GD Power Development Co. ("GD Power" for short) under CHN Energy, in Diqing's Shangri-La City, obtained the investment project registration certificate from the Shangri-La Municipal.
