

# Does energy storage supporting photovoltaic need approval

## Overview

---

All nonresidential buildings with solar PV systems are required to have a battery energy storage system unless they meet an exception. The State Electrical Code adopts by reference the 2023 edition of the National Electrical Code (NEC). Lengthy and inefficient permitting can increase costs and waste time for everyone involved. The National Simplified Residential PV and Energy Storage Permit. Josh's expertise spans both in-front of and behind-the-meter initiatives including residential, commercial, utility, grid-scale, and ev charging solar and storage applications. If you're just getting started installing solar with energy storage for residential and commercial applications, you know. SolSmart is excited to release an updated version of the national Simplified Permit Guidelines for residential solar, including new guidance on permitting for residential battery storage. For more information about SolSmart, a program intended to provide no cost technical assistance to jurisdictions who want to make it faster, easier and more affordable for their communities to go solar visit: [www.solsmart.org](http://www.solsmart.org). The SolSmart guide is supported by the.

## Does energy storage supporting photovoltaic need approval

### Do's and Don'ts for Getting Energy Storage Permits Approved

Learn the best practices and the mistakes designers make for getting commercial and residential solar+energy storage projects through permitting.

**12.8V6Ah**

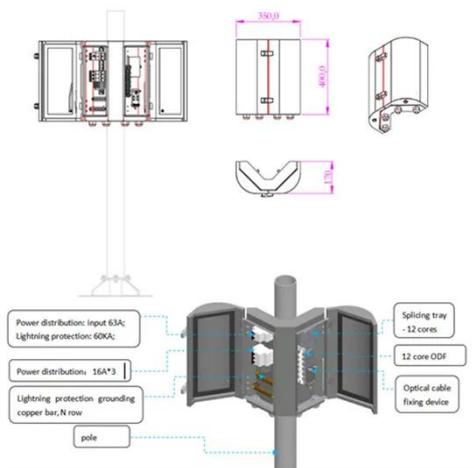

Nominal voltage (V):12.8  
 Nominal capacity (ah):6  
 Rated energy (WH):76.8  
 Maximum charging voltage (V):14.6  
 Maximum charging current (a):6  
 Floating charge voltage (V):13.6-13.8  
 Maximum continuous discharge current (a):10  
 Maximum peak discharge current @10 seconds (a):20  
 Maximum load power (W):100  
 Discharge cut-off voltage (V):10.8  
 Charging temperature (°C):0-+50  
 Discharge temperature (°C):-20-+60  
 Working humidity: <95% R.H (non condensing)  
 Number of cycles (25 °C, 0.5C, 100%doD): >2000  
 Cell combination mode: 32700-4s1p  
 Terminal specification: T2 (6.3mm)  
 Protection grade: IP65  
 Overall dimension (mm):50\*70\*107mm  
 Reference weight (kg):0.7  
 Certification: un38.3/msds

### New Simplified Permit Guidelines

## for Solar and Storage

The National Simplified Residential PV and Energy Storage Permit Guidelines include a step-by-step checklist for meeting electrical and structural requirements for solar and battery storage ...
