

# East Africa New Energy solar Energy Storage

## Overview

---

This report provides a comprehensive overview of the current status of the energy storage market in East Africa, highlighting key market drivers, technological advancements, regional project developments, and future trends. The accelerated adoption of energy storage solutions in East Africa is. GridUltra is a liquid-cooled containerised BESS platform designed for high-temperature operation and long-duration use. The. East Africa is rapidly emerging as a hotspot for energy storage projects, driven by growing electricity demand and the need to stabilize renewable energy grids. 5 GW of new solar PV capacity in 2025, representing a 54% increase from 2024, according to the Global Solar Council.
