

El Salvador solar power generation manufacturer

Overview

For an investor evaluating El Salvador, the central question is straightforward: Who will purchase the solar modules produced, and in what quantity?

The answer lies in analyzing both a growing domestic market and a significant, often overlooked, regional export opportunity. This article provides a. For 27 years, AES El Salvador has contributed to the country's development, strengthening our leadership as a benchmark in the national and regional electricity sector. We provide operation and maintenance services (O&M) for solar photovoltaic plants. According to El Salvador's official data provider, Unidad de Transacciones (UT), the relative share of solar in the energy matrix has increased by 380% over the period, which is an important sign of both. Between 2015 and 2023, El Salvador experienced a 160-fold increase in its solar energy generation capacity, according to statistics from the Latin American Energy Organization (Olade). This tool is designed for the automated IQE.
