os. El valor ronda entre los US\$ 30 mil y US\$ 35 mil. Battery-powered vehicles make up about a quarter of all new car and SUV sales in Uruguay, thanks to tax exemptions and the cost of filling up at the pump. Electric vehicles are flooding into one of South America's wealthiest nations where tax incentives and expensive gasoline are pushing consumers. BYD now dominates Uruguay's EV market, selling thousands of units in a country where electric cars make up 25% of new sales. Chinese EV brands control 90% of Uruguay's EV sales, with BYD's Seagull model priced under \$20,000 gaining huge traction. 40/gallon gas are driving. Uruguay has emerged as a regional leader in electric vehicle (EV) adoption, outpacing every country in Latin America with its rapidly evolving transport sector.
