

Electric vehicle incentives tbilisi

Overview

In this guide, we'll walk you through everything you need to know - from charging infrastructure and driving tips to scenic routes and the perks of Tesla rental in Georgia from OG Drive. The country's potential to become a regional leader in electric mobility is undeniable—powered by an electricity grid already dominated by renewable energy and an increasingly climate-conscious population. This is. City Hall reports that Tbilisi has already installed 130 of the 198 fast electric vehicle charging stations planned for 2025. Mayor Kakha Kaladze, Vice Mayor Giorgi Tkemaladze, and Transport and Urban Development Agency head Nini Bagashvili inspected one of the new stations near the Tbilisi Concert. In order to mainstream the use of renewable energy in the transport sector, country shall set an obligation on fuel suppliers to ensure that the share of renewable energy within the final consumption of energy in the transport sector is equal to that target. Mayor Kaladze confirmed that the auction for this initiative has been successfully completed, with the winning companies now selected.
