

# Electric vehicle range amsterdam

## Overview

---

Your new electric steed should have a range of at least 120 kilometres and a new price tag that doesn't exceed €45,000. These criteria ensure that the subsidy is allocated to vehicles that promise both affordability and practicality. This ranking recognises Amsterdam's investment in smart transport, commitment to climate-neutral mobility by 2030, and efforts to enhance public transport accessibility. According to the. In September 2024, the Netherlands Enterprise Agency announced a new subsidy scheme to help fund private charging infrastructure for commercial vehicles. Amsterdam, Rotterdam, and Utrecht are at the forefront of this transition, offering incentives such as tax breaks and dedicated EV lanes.
