

# Energy Bureau Solar Power Generation Documents

## Overview

---

The RERH specifications and checklists take a builder and a project design team through the steps of assessing a home's solar resource potential and defining the minimum structural and system components needed to support a solar energy system. The Blueprint How-To Guides, in contrast, provide additional detail to help practitioners get going. Awardees can reference these more granular steps, recommendations, and resources within each key activity as they get started implementing their EECBG projects and programs. By using these. Susan Kidd, Director of Sustainability at Agnes Scott College, a small independent college in Georgia, led a presentation revealing how the college successfully deployed solar arrays on its campus. In January 2015, the college completed the installation of five solar photovoltaic arrays, which now. In the opening days of the Biden Administration, the President issued Executive Order 14008, directing the Administration to focus on actions to address climate change. In the wake of this directive, the federal government has taken actions to encourage the deployment of renewable energy and other. inistration PBS-P100 Chapter 6. 14, Solar Photovoltaic S 7-1 ing at, in aggregate, equal or exceed the size of the proposed project. Referen lity with UGA FMD and the warrantor of the existing roofing system.
