

# Energy Storage Power Engineering Solutions

## Overview

---

The industry-leading comprehensive suite for solar and storage assets, offering advanced analytics, remote diagnostics, and performance reporting tools, including Software, Energy Management System, SCADA, Power Plant Controller and Logger solutions. As a leading provider of utility-scale energy storage solutions, ECI has designed world-class Battery Energy Storage Systems (BESS) with capacities up to 506 MW and 2024 MWh, working closely with top battery and inverter suppliers such as Tesla, BYD, Samsung, CATL, and GE. Our experience spans. Pure Power Engineering is a distinguished design and engineering firm specializing in premium BESS designs. Our exceptional expertise, substantial in-house team, and dedication to high-quality engineering, paired with our widespread national coverage, assure our clients of precise and efficient. At Exactus Energy, we've engineered BESS solutions that not only store energy but also transform how our clients think about power reliability, cost control, and energy independence. As the top supplier of clean energy to corporations worldwide, we're a leading developer, owner, and.
