Generadora Gatun to Diversify Panama's Energy Mix
The Generadora Gatún combined cycle power project will receive natural gas from AES's liquified natural gas (LNG) storage and regasification facility in Colón. The plant will be connected to the terminal through a gas pipeline. The LNG terminal designed with a storage capacity of 180,000 cubic metres (m³) was constructed in 2018 for Panama and Cent See more on nsenergybusiness
