

# Energy storage system under construction in Togo

## Overview

---

Togo has begun construction on a 25 MW solar plant with 36 MWh of battery storage in the country's north. An installation ceremony for the project took place last week. Washington | Octo— Agence Française de Développement (AFD) and the Global Energy Alliance for People and Planet have signed a USD 200,000 contribution agreement. China's TBEA International Engineering is leading the project, which is scheduled for completion within 13 months. It is expected to serve about 145,000 people in the city of Dapaong. China's. One such effort is currently underway in Togo, where support has been announced for a pilot 55 MW energy storage project. France and GEAPP Invest in Togo's Energy Future During the annual meetings of the International Monetary Fund and the World Bank, it was announced that AFD (French Development. Discover how Togo's groundbreaking energy storage projects are reshaping West Africa's power infrastructure while addressing renewable energy challenges.
