

# Equipment for photovoltaic panel slicing plant

## Overview

---

Our automated Solar/PV modules production line includes a complete set of equipment, such as solar cells laser cutting, string soldering, welding, glass loading, layup, laminating, framing, J-Box soldering, curing, final testing, labeling, sorting, and packaging of the produced. Our automated Solar/PV modules production line includes a complete set of equipment, such as solar cells laser cutting, string soldering, welding, glass loading, layup, laminating, framing, J-Box soldering, curing, final testing, labeling, sorting, and packaging of the produced. SEMIPHOTON, INC. together with our manufacturing Partners, offers state-of-the-art fully-automated and semi-automated Solar/PV modules production lines, designed to fit any capacity and factory size. The first run automated processes are the stringing and lamination, but also the analysis of quality as electroluminescence tests. What is a solar laminator machine?

The solar laminator machine is the equipment which permits the polymerization process of the. Setting up a photovoltaic panel cell production facility requires specialized equipment for each manufacturing stage. Multi-Wire Slicing. These ingots are then sliced into thin wafers using diamond-coated wire saws. Panel Turn-Key Production Line, Panel Solar Simulator, Stringer, Tabber, Laminat.

- TELECOM CABINET
- BRAND NEW ORIGINAL
- HIGH-EFFICIENCY

LiFePO<sub>4</sub> Battery, safety

Wide temperature: -20~55°C

Modular design, easy to expand

The heating function is optional

Intelligent BMS

Cycle Life: > 6000

Warranty: 10 years

## SOLAR/PV EQUIPMENT - Semiphoton

Our automated Solar/PV modules production line includes a complete set of equipment, such as solar cells laser cutting, string soldering, welding, glass loading, layup, laminating, framing, J-Box ...

[Learn More](#)

## Solar photovoltaic plant slicing operator Photothermal equipment

The complete set of equipment for the photovoltaic panel production line includes specialized equipment for multiple stages, from silicon material

preparation to final component assembly
