

# Estonian energy storage low temperature solar container lithium battery

## Overview

---

Meet Tallinn Energy Storage Lithium Battery Company —the silent powerhouse behind Europe's green transition. Did you know their batteries can outlast an Estonian winter (-20°C, anyone?

) while storing solar energy like a squirrel hoarding nuts?

Now that's a flex. The flagship battery storage project commenced operations on February 1, only days before cutting ties with the Russian power grid. Estonian state-owned energy company Eesti Energia has inaugurated the nation's largest battery energy storage facility at the Auvere industrial complex in Ida-Viru. Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in Estonia. The JV between Estonian energy company Evecon, French solar PV developer Corsica Sole, and asset manager Mirova will develop the 2-hour duration systems, with. The project is designed to help Estonia, Latvia, and Lithuania synchronise their electricity grids with Europe by 2025, breaking away from the historical dependency on the Russian grid. The utility's sole shareholder.
